Adhesive Transparent Framed Dressings

Transparent Framed Dressings

Our Claripose® framed dressing consists of a transparent adhesive film dressing. The framed style is specifically designed to cover & secure IV cannula sites. It's waterproof & provides a bacterial & viral barrier. The unique thin film conforms to the body for greater patient comfort.

- ✓ Sterile, flexible & breathable film
- ✓ Easy monitoring of the wound site through non-reflective, clear film
- ✓ Eliminate unnecessary dressing changes
- ✓ Waterproof & provides bacterial & viral barrier
- ✓ Long wear time & patient comfort
- ✓ Cover & secure IV cannula site, gentle to the skin
- ✓ Easy application and removal
- ✓ Latex free
