

# IV Starter Pack

06-561

## Enhancing performance at every step.

Our IV Starter Packs and in-service support ensure an efficient, managed process designed to enhance performance at every step.

### PERFORMANCE

## Improve Sterile Protocols.

Managing sterile protocols across infrequent and expert users is paramount. All our IV Starter Packs are supported by an in-service education and training support program to ensure sterile protocols, patient comfort and product performance are maximised.

## Reduce Waste.

Our IV Starter Packs support standardised and compliant practice and optimise the use of components for venous access.

### Pack Contents IV Starter Pack – without tourniquet (Sterile)

RE-ORDER: 06-561 CARTON QUANTITY: 200 PACKS
