

# MULTIGATE V-Text<sup>®</sup>

## SURGICAL GOWNS

### Uncompromising Safety and Performance.

V-Text<sup>®</sup> surgical gowns provide uncompromising performance and the reassurance of compliance with AAMI level 4 standards, making them perfect for long duration, high fluid level procedures.

#### TECHNOLOGY

### Breathable viral barrier.

V-Text<sup>®</sup> gowns are made with a unique lightweight tri-laminate material that delivers a high performance impermeable but breathable viral barrier that allows the movement of warm air vapour away from the body whilst stopping bacteria and virus penetration.

#### FEATURES

### AAMI level 4 protection.

Heat sealed seams and a responsive middle layer ensure our V-Text<sup>®</sup> gowns meet and exceed AAMI level 4 standards making them the ideal solution for high fluid, long duration procedures.

### Comfort.

With generous dimensions to support upper body movement and a lightweight back panel to assist in regulating the wearer's body temperature, V-Text<sup>®</sup> gowns are designed to maximise comfort during procedures.
