

MULTIGATE

Medical
Products

For 30 years we've
created medical
products, services and
experiences that give
you the advantage to
perform at your best.
— We are Multigate,
and this is our story.

FROM THE VERY BEGINNING

Innovation & Collaboration

We have always been at the forefront of innovation. From a business that was started by two men with one product in 1986, we have grown to become a producer of over 2,000 items and an employer of 245 staff many of whom have had successful careers in nursing and hospital care.

From the outset we recognised the value of collaboration, working alongside you, our customers, to discover unmet needs and find solutions.

We proudly recognise the importance of our heritage as this gives us the unparalleled benefit of experience.

Through decades of listening, watching and being there, we have gained an inherent understanding of what your needs are.

Over the years, pioneering development and strong partnerships within the world of hospital care has led us to be the market leader in the supply of medical products.

We have always felt the highest duty of care not just to you, but to your

patients, as the decision to use our products has the capacity to shape a life.

So although we are 30 years old, with the creation of every new product and every evolution of our business we consider ourselves renewed.

— We have never stood still. Fearless in our exploration and discovery of new techniques, approaches and materials, we've always understood the need to imagine a future before it exists.

Fluorescent thread is clearly detectable even when soaked in blood.

Unique thread fluorescent under UV light and detectable by the naked eye.

MULTIGATE FluroTec®

- ✓ X-ray detectable
- ✓ Visible under UV light
- ✓ Highly absorbent
- ✓ Low linting

TODAYS APPROACH

Evolving

With a genuine desire to improve the quality of your day-to-day life we are dedicated to the design of innovative and groundbreaking new products that have you and your performance as a medical professional in mind.

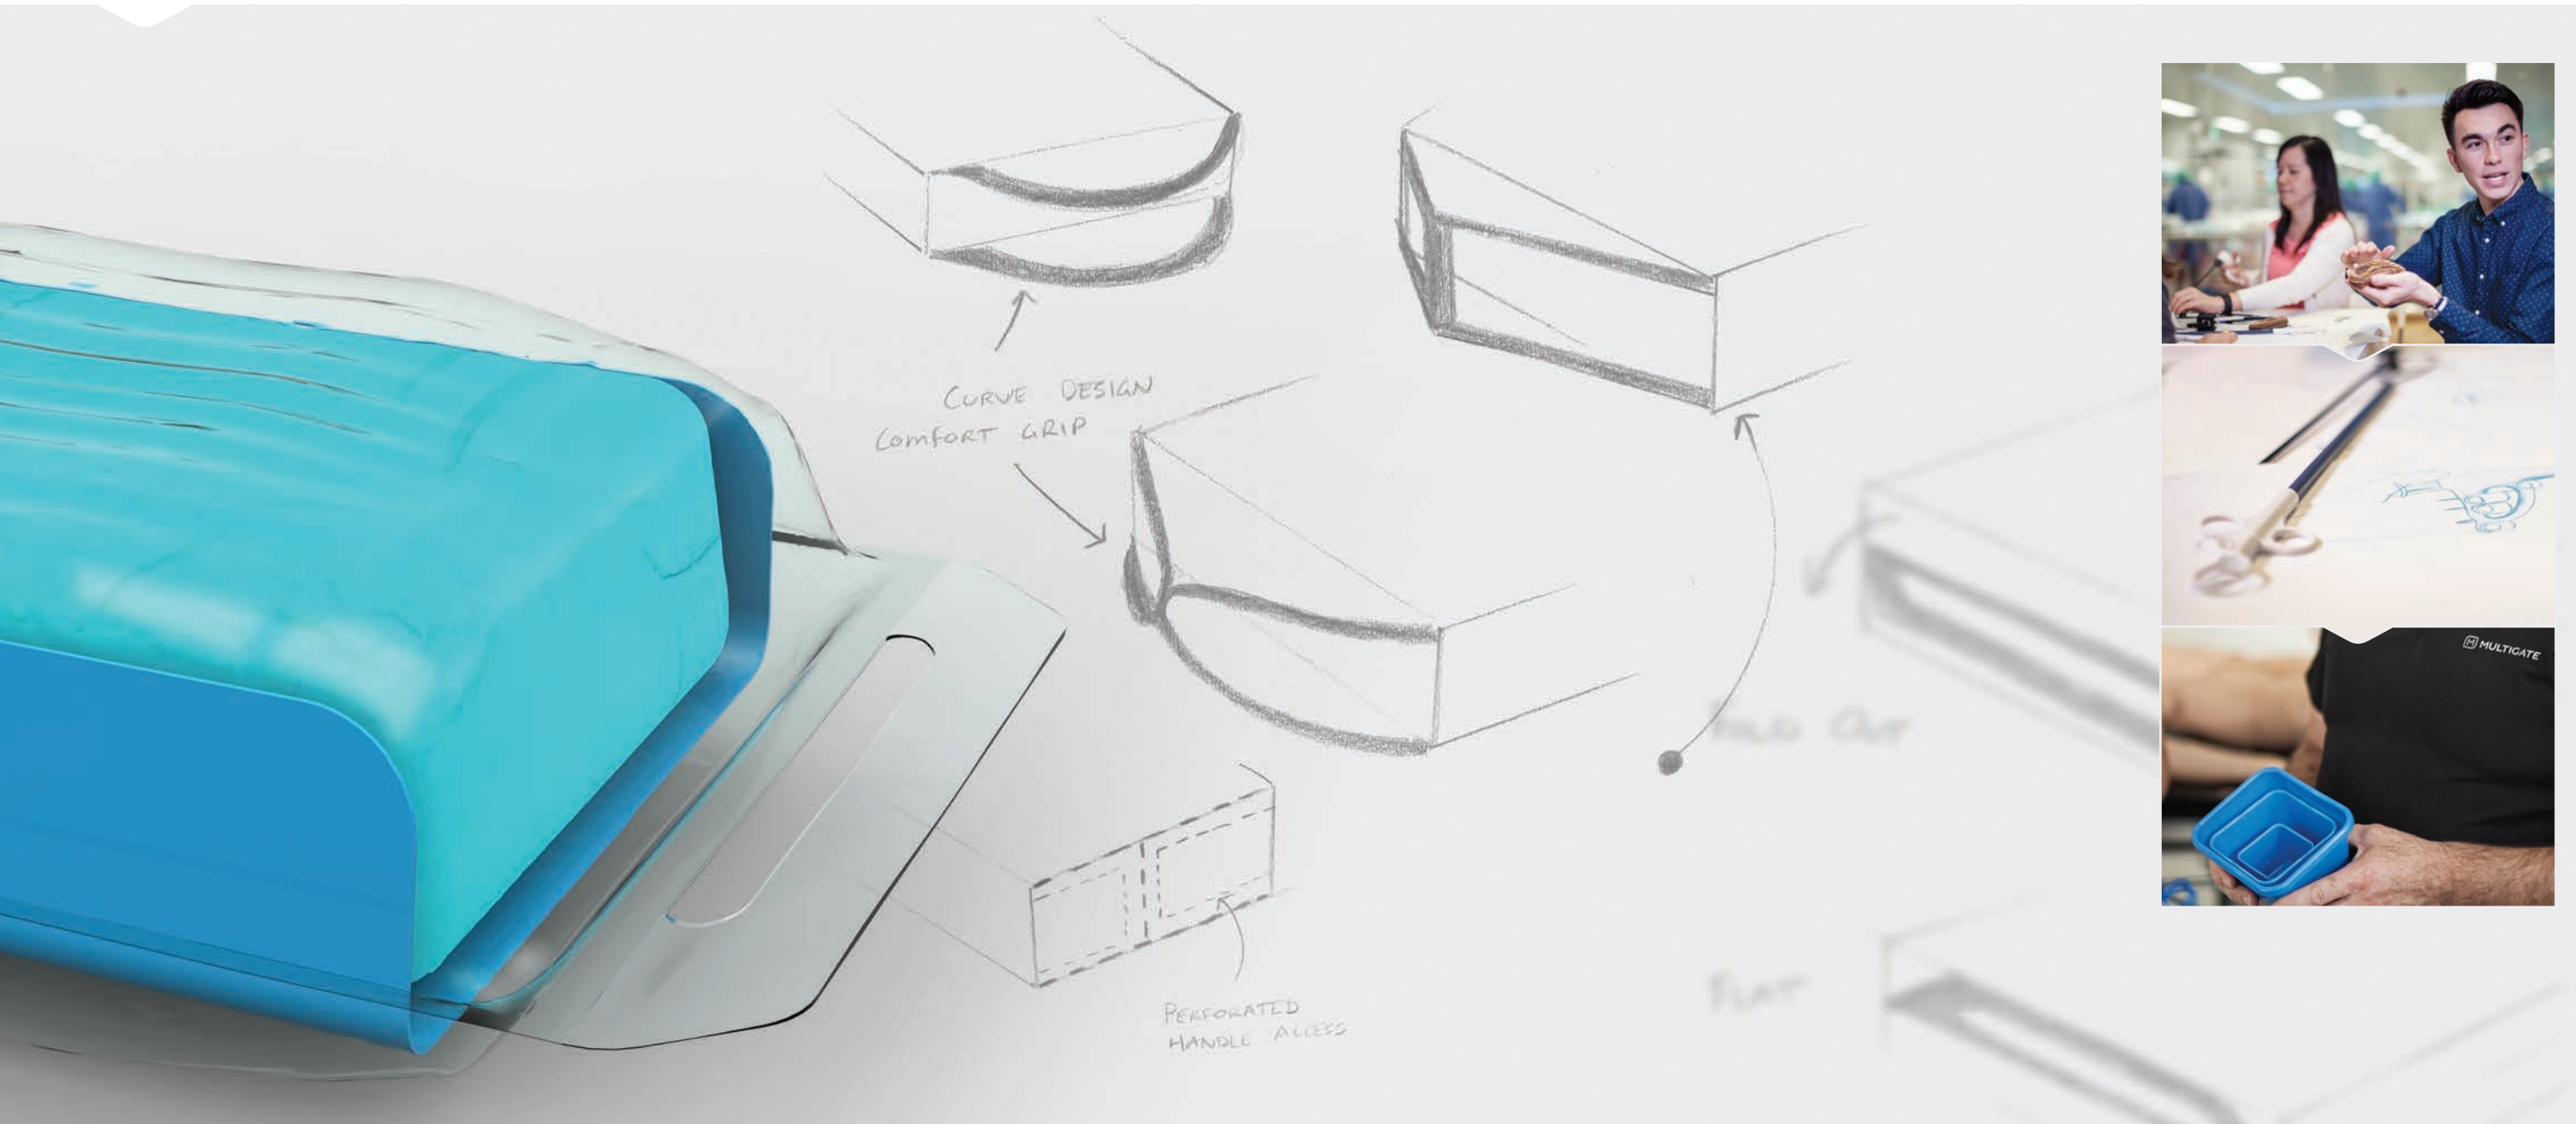

Medical technology advances rapidly. As surgeons and scrub nurses you adapt daily. As your medical supply partner our responsibility is to innovate constantly.

— Today we are adopting a design thinking approach. An approach that fits naturally with us because it asks us to place your needs at the center of everything we do.

We believe that through adopting world's best practice in design we can enhance our capabilities and refuel our ability to support an even stronger contribution to the world of hospital care.

By watching how you work, understanding the challenges you face and appreciating the obstacles you encounter, we can translate these into a relevant and valuable evolution of our products.

We complement our design capability with investment in world-class research, development, manufacturing and support facilities all of which allow us to be agile and responsive in servicing the hospital care market.

With our outstanding reputation and the increasing international demand for premium medical products, we have the resources and solutions to fulfil a rapidly expanding global market.

Our future success lies in our ability to make things work better for you.

We do this by getting to know you and the way you work. Then we find a need and solve it. With this in mind we pioneer products that very simply, make your life easier.

To bring our brand closer to you, our rebrand captures these personal experiences and shares our passion for design, science and engineering.

— We believe that simplicity leads to clarity and clarity enables confidence which is why we focus each element of our brand around being simple, clear and confident. Just like our products.

THE FUTURE

Performance Advantage

Our core motivation is to deliver
you a performance advantage.

In life-changing situations you need
the reliability that we offer, giving you
the reassurance that you have skilfully
designed products of the highest
scientific quality enabling you to
operate at your optimum level.

space

MULTIGATE CubeWare™

- ✓ Single Use
- ✓ Saves instrument table space
- ✓ Reduces storage volume
- ✓ Improved stability
- ✓ 100% recyclable

Now and in the future we will continue to be curious, searching for answers and asking considered questions along the way. As we expand our product base, we will always seek to offer visionary yet eminently practical solutions that achieve cutting-edge results.

— Our unique approach and the source of our relevance, is driven by our dedication to continually fuel the empathy required to first understand then solve your unmet needs.

Despite our growth and success we remain true to the vision we had 30 years ago, that of collaboration and innovation. You remain our constant inspiration — your vocation, determination and dedication.

We are here for you, for your patients and we remain deeply committed to the future of hospital care.

By working together we can deliver experiences that inspire performances and better patient outcomes that will lead the world of hospital care to new standards.
— Together we are Multigate.
